STATEMENT OF SUBSTANCE OF INTERVIEW

COMMISSIONER FOR PATENTS
ALEXANDRIA, VIRGINIA 22313

SIR:

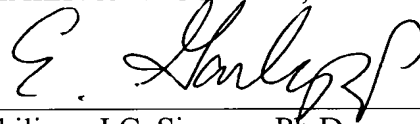

On May 5, 2008, Examiner Bonshock contacted Applicants' representative Ed Garlepp to discuss amendments to the above-identified patent application in order to place this case in condition for allowance. In particular, Examiner Bonshock indicated that if the independent claims in this case are amended to include the features of a scroll bar, a subset of systems selected by the user being displayed on the main menu screen, and that the graphical menu can also be automatically displayed as part of a prescribed sequence or plan, then this case may be in condition for allowance because the prior art of record does not disclose these features in combination with the other features included in respective independent claims.

Statement of Substance of Interview

The discussion led to an Examiner's Amendment fully documented in the Notice of Allowability mailed July 10, 2008.

Respectfully submitted,
